

To the Global Youth Service Team-BGET: Border Green Energy Team:

Greetings!

In behalf of the staff and the whole organization and in my capacity being the Executive Director of Peoples Partner for Development and Democracy (PPDD) and personally, I would like to express my heartfelt thanks to The Global Youth Service Team-BGET: Border Green Energy Team (GYST-BGET) for the help, support and valuable service extended to Light School. GYST provided the Light School with a solar panel which generates relatively a good supply of power for the school. The school dining and kitchen area and the boarding house of the kids are now illuminated. The kids now has no difficulty studying during night time, doing their homework or just hanging out with teachers and fellow students during the night talking about school and other stuffs. Indeed, the solar panel provided by GYST had made a big difference in improving the physical condition of the school. It literally made the lives of the students and school staffs easier and more convenient.

On the other hand, we would like as well to thank Border Green Energy Team (BGET) for facilitating the connection and for introducing GYST to Light School. If not for the efforts of BGET and its partnership with GYST, Light school will not probably get the chance to have such a good opportunity of accessing help and support from GYST.

Again to the Global Youth Service Team (GYST) and to Border Green Energy Team (BGET), I personally thank you and in my own humble ways, I want to say that I admire the dedication and the commitment of GYST and BGET in helping and providing alternative source of power and extending other related services to areas and places like where we work as an organization. This is indeed a true expression of empathy, kindness and genuine concern of improving the lives of less fortunate people like our kids at Light School. With this, I say THANK YOU!!! We hope that GYST and BGET will continue supporting Light School in whatever capacity it can.

From all of us in Peoples Partner for Development and Democracy (PPDD) and Light School, we wish all people in GYST and BGET its staffs, supporters, board of directors, partner organizations and everyone who are supportive of GYST -BGET all the best in work and life. Hopefully we will see GYST in Light School again in the near future. We will never forget your kindness and all the support extended to our school.

Thank you again and more power!!

Yours sincerely,

Anna
